

## Advent Calendars

*These desk-top calendars are an absolute must. We give these advent calendars at Thanksgiving because they begin to walk people through Advent the first week of Advent, which comes right after Thanksgiving. Through simple daily, themed readings, these tools bring back the spiritual meaning of the Christmas season. Each calendar includes weekly Advent ceremonies for adults or for adults with children.*

*Ordinarily retailing for \$10.00 each, we will be happy to provide you five desk-top calendars to give to family, friends, teachers, church staff, and work associates for five calendars for \$25 (that's \$5 each) plus shipping and handling. For quantities above 50, we will offer the calendars for \$4 each plus shipping and handling. These are NOT available for individual orders on our Web sites or in retail stores.*

*The desktop calendars we can offer this year are:*

### *From Humbug to Hallelujah!*

Designed to look at the transformation of Scrooge in Dicken's classic story *A Christmas Carol*, this calendar walks users through some of the attitude changes needed in order to discover the beauty of the Christmas season. Self-reflection leads to heart adaptations.

### *The Christmas You've Always Longed For*

Slow down, make a plan that keeps Christ in the center, follow through on your vows, and joyfully celebrate this spiritual event—that is the formula that makes disappointing holidays into the Christmas you've always longed for.

### *Amazing Emmanuel*

With so much emphasis on super-heroes in film and comic books, this series looks at the one true Super-hero, Jesus Christ, and asks, "How does he really measure up?" This calendar helps the user (and their super-hero fans) to appreciate the amazing qualities of Emmanuel. Worship is the natural response.

## *A Season of Wonder*

This calendar's purpose is to bring out the flavor of Christ in Christmas traditions. We want to help the user center in not only the Christ of the Nativity season, but the Christ of all year long. Focus on Him is the goal.
